LOT #3 Quiet solitude among the lush forest plants and a plethora of wildlife. This secret sanctuary just minutes from downtown Weaverville awaits an environmentally conscientious buyer to build their dream home! Join this small neighborhood with only five other homes on large 10+ acre tracts and enjoy walks in the woods, coffee downtown and sanctuary among the trees.

LOT #4 Just outside of Weaverville is a quiet enclave neighborhood in the Hundred Acre Wood. Five homes exist and only two lots are left. This lot has eleven acres with sweeping views to the northwest. The lot originally perked for three bedrooms and the electricity is underground. The lot abuts the land owned by the Young Life organization, a trickling stream and old logging trails which make hiking an immediate experience. Come create your life in the mountains of Western North Carolina.
